

State Health

PLAN SUMMARY

MS State Department of Health offers basic health coverage through the State and School Employees' Life & Health Plan for Legacy Employees and Horizon Employees. Legacy Employees are those employees that were initially hired before 01/01/2006 and Horizon Employees are those employees that were hired on or after 01/01/2006. The State Health Plan is self-insured, meaning that the State is responsible for paying claims and other expenses associated with providing health care services.

You may choose: "Base" or "Select" Coverage.

The State pays 100% of the active employee premium for both Legacy and Horizon employees enrolled in Base coverage. Legacy employees enrolled in Select Coverage will pay \$20 per month for active employee premiums, while Horizon Employees enrolled in Select Coverage will pay \$53 per month of the active employee premium.
